

Clearview Pavilion Dedicated at Park

LEFT TO RIGHT: Moon Township Supervisor Andrew Gribben, Supervisor Frank Sinatra, Ralph Canterbury, vice president, marketing and technology, Clearview Federal Credit Union; Jim Vitale, chairman, Moon Township Board of Supervisors; Christianne Gribben, assistant vice president, marketing, Clearview Federal Credit Union; Dana Kasler, director, Moon Parks and Recreation.

Moon Township and Clearview Federal Credit Union unveiled Moon Park's new Clearview Federal Credit Union Pavilion to the community on May 25. Representatives from the Moon Township Board of Supervisors and Clearview Federal Credit Union cut the ribbon on the pavilion and welcomed residents to the new picnic area, which is now open for reservations.

The newly-developed picnic pavilion is part of a new ten-year partnership between Moon Township and Clearview Federal Credit Union, which will also continue its sponsorship of Moon Township's Annual Independence Day Celebration.

"We would like to thank Clearview Federal Credit Union for their continued

relationship with the township," said Jim Vitale, chairman of the Moon Township Board of Supervisors. "Clearview has been a tremendous partner."

Located next to Moon Park's tennis courts, the picnic pavilion is the latest project in Moon Township's long range parks improvement plan, which will continue to evolve in Moon Park throughout the next several years.

The pavilion, which was constructed with eco-friendly building materials, can accommodate as many as 100 people and is furnished with new picnic tables and outdoor grills as well as water and electric service.

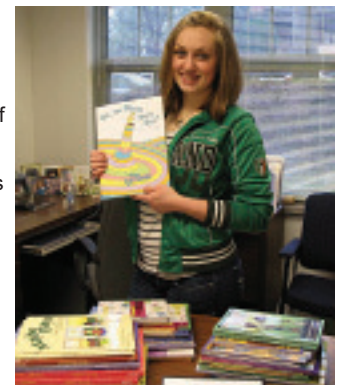

Community Project

Moon Area High School senior Emme Kelly recently completed a community service project that benefits the Family Hope Connection, a licensed adoption and foster care agency located in Squirrel Hill. Along with a partner, she organized a dance at Moon Middle School that raised more than \$1,400. Emme donated her portion of the profit to the Family Hope Connection.

Emme chose the Family Hope Connection because her mother works at the agency, and her grandparents were former foster parents. While she does not know most of the individuals her grandparents foster-parented, her mother became very close to one of them, and she has always been regarded as "family."

Said Emme, "I know how hard life is without the extra things that they go through thrown in. I thought that if I could help out just a little bit by donating money to help them, that is the least I can do."

Emme requested that the majority of the money she donated to the Family Hope Connection be used for books to be given to the foster children with whom Family Hope Connection staff work. So far more than 70 books have been bought.
